

DIARY NOTES - 11 June

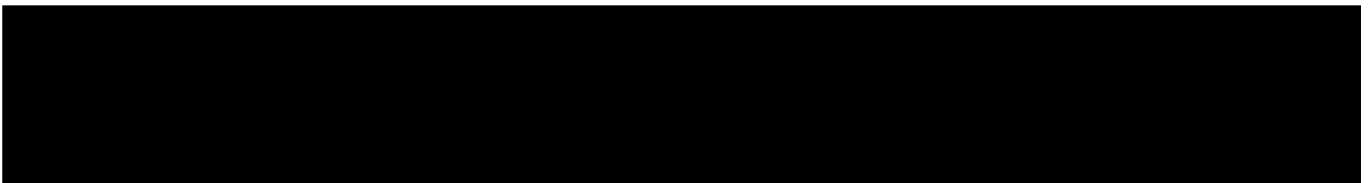

STATINTL

3. Ed Saunders reports that DD/I and DD/S requests for Fiscal Year 1958 money can be covered by their present allotments. DD/P wants more money and he has told them that they will have to establish their own priorities. He has also told Dick Bissell that there is no money for him except what is left in the Director's special Reserve in the amount of \$600,000.

4. I had lunch with Kirk to discuss the Psychiatric Staff. His own version of the ~~going on~~ goings on during my absence coincide with the report which John Tietjen gave me. He also feels that John was right in this instance and that the psychiatrists are trying to have their cake and eat it too. We then discussed the selection out procedures and he told me that they were having a large number of visits from personnel who had been told that they were going to be selected out. He wanted me to do what I could without attributing to him to insure that the Office of Personnel did nothing which could cause them to be accused of acting as prosecutors rather than unbiased and objective judges and jurors.
